DIGITAL HEALTH ENGINEERING TECHNOLOGY | SOFTWARE • DATA • QUALITY

Toronto, ON • (437) 344-5698 • crystalhilton@gmail.com • linkedin.com/in/crystelhilton

PROFESSIONAL PROFILE

Digital Health Engineering Technology student with hands-on experience in C#, Python, SQL, JavaScript, HTML/CSS, Oracle Database, Linux/Unix, software design, and data visualization. Brings 8+ years of professional experience across clinical laboratory operations, quality assurance, research, client service, and team coordination. Experienced in testing, troubleshooting, documentation, data handling, and user-focused problem solving, with a strong interest in digital health, health information systems, software development, databases, and quality assurance.

TECHNICAL SKILLS

Programming	C#, Python, JavaScript, SQL
Web	HTML, CSS, React, Web Development
Databases	Oracle Database, SQL Developer, Database Design, Data Modelling
Tools	Visual Studio, VS Code, Git, GitHub, Docker Desktop, Linux/Unix, Visio
Methods	Object-Oriented Programming (OOP), Agile, Quality Assurance (QA), SOP Documentation
Data & Productivity	Tableau, Microsoft Excel, Word, PowerPoint, Data Entry, Research

EDUCATION

Advanced Diploma - Digital Health Engineering Technology	Jan. 2026 - Present
<i>Centennial College, Toronto, ON</i>	
• Relevant coursework: Programming I & II; Database Concepts; Advanced Database Concepts; Client-Side Web Development; Web Application Development; Software Engineering Fundamentals; Software Systems Design; Linux; Health Information Systems.	
Diploma - Fashion Techniques & Design, Honours	2021 - 2022
<i>George Brown College, Toronto, ON</i>	
• Awards: International Student Postsecondary Degree/Diploma Scholarship; Dean's List (all semesters).	
Associate of Arts and Sciences - Psychology	2009 - 2012
<i>Dominica State College, Roseau, Commonwealth of Dominica</i>	
• Additional academic studies in Biology.	

SELECTED PROJECTS

Ontario Mortality Trends, 2013-2023 - Tableau	2026
• Created an interactive Tableau dashboard to communicate Ontario mortality patterns and trends through clear data visualization.	
Object-Oriented Programming Labs - C#	2026
• Programmed class-based applications using constructors, properties, Enums, collections, inheritance, method overriding, file I/O, and JSON serialization/deserialization.	
Database & SQL Labs - Oracle	2026
• Wrote SQL queries using filtering, calculations, aliases, and relational data retrieval in Oracle SQL Developer; configured Oracle Database 23ai Free with Docker Desktop.	
The Progress Restaurant - Web Project	2026
• Designed a multi-page website using HTML, CSS, and JavaScript with navigation, menu, order/estimate, and form-based pages, with attention to interface consistency and accessibility.

DIGITAL HEALTH ENGINEERING TECHNOLOGY | SOFTWARE • DATA • QUALITY

PROFESSIONAL EXPERIENCE

Quality Assurance & Alterations Supervisor

Nov. 2023 - Present

Style & Grace Cleaners, Toronto, ON

- Lead quality assurance and alteration workflows for bridal and luxury garments, inspecting 80+ pieces monthly to support accurate final delivery.
- Develop and maintain Standard Operating Procedures (SOPs) and detailed documentation to strengthen workflow consistency.
- Conduct quality inspections, document defects, and coordinate corrective actions to meet service and delivery standards.
- Coordinate client measurements, fittings, alteration instructions, and final quality checks while maintaining accurate service information.
- Train and support team members on procedures, workmanship expectations, and quality-control practices.

Communications Assistant / Website Coordinator - Freelance

Nov. 2023 - Mar. 2025

Canadian Apparel Federation, Toronto, ON

- Updated website content through a CMS, publishing industry news, event pages, and member resources on a regular schedule.
- Reviewed digital content for accuracy, formatting, consistency, and usability before publication.
- Coordinated 10-20 webinars using GoToWebinar, including registration setup, attendee communications, and post-event follow-up.
- Gathered and organized information from multiple sources to maintain accurate, timely online content.

Medical Laboratory Technician

Dec. 2013 - Dec. 2020

Ministry of Health, Government of Dominica Medical Laboratory, Roseau, Dominica

- Supported clinical laboratory operations through sample processing, laboratory testing, donor screening, data entry, quality control, and equipment maintenance.
- Used Laboratory Information Systems (LIS) to record, manage, and retrieve patient test data while supporting accuracy and confidentiality.
- Performed quality-control procedures and maintained documentation in accordance with established laboratory processes and standards.
- Supported SOP documentation, inventory management, equipment maintenance, and technical troubleshooting.
- Assisted with sample analysis and routine laboratory procedures, including microscopy and phlebotomy.

RESEARCH, LEADERSHIP & COMMUNITY

Student Textile Researcher

2021 - 2022

George Brown College

- Conducted applied research on regenerating cellulose fibers from textile waste and documented experimental findings; collaborated with the Fashion Exchange on data collection, testing, and analysis.

Project Manager / Anti-Doping Country Representative

2019 - 2021

Dominica Anti-Doping Organization / Dominica Olympic Committee

- Led delivery and evaluation of evidence-based clean-sport education activities, coordinated anti-doping team members, and supported rule implementation, results management, and sample-collection activities.

Marketing Team Member - Volunteer

Sep. 2021 - Apr. 2022

Enactus George Brown

- Created social media posts and campaign graphics to strengthen online engagement and brand awareness.

CERTIFICATIONS & TRAINING

- Drugs in Sports - International Olympic Committee, 2021
- Immunohematology Training - Hema-Quebec / P.A.C.E., 2019
- Phlebotomy Training - Princess Margaret Hospital Medical Laboratory, 2013
